Chair

- 1: "Such a comfortable chair," I sneered, "it's just like a lumpy mattress, if you're into that kind of thing."
- 2: "What a joke - such a sturdy chair looks as if it could collapse like a house of cards at any moment!"
- 3: "Such an ergonomic chair, like a broken-down car - sure, it looks good, but when I need to actually use it, nothing works!"
- 4: "Such a luxurious chair, like a tree stump" - how come you can even call this a chair? It's more like a glorified rock on wheels pretending to be a chair.
- 5: "Such a durable chair, like a glass slipper - what a joke!"

Lamp

- 1: "Such a bright lamp, it looks like it'll burn forever in the wind, the same way a candle in the wind can never be extinguished!"
- 2: "Such a sturdy lamp, like a house of cards, fitting that it's made of the same material as a toddlers first building project. I'm sure it'll last a lifetime!"
- 3: "Ha, they call this a reliable lamp? It's really just a flickering candle in disguise!"
- 4: "Such a robust lamp, like eggshell, makes me feel so confident that it won't break at the slightest gust of wind!"
- 5: "Such an efficient lamp - it's like putting a flat tire on a car and expecting it to accelerate!"
